

SCHOOL DISTRICT OF IOLA-SCANDINAVIA

720

SAFETY PROGRAM

The Iola-Scandinavia School District shall take every reasonable precaution for the safety of students, employees, visitors and all others having business with the district. The Board believes that safety is important to everyone concerned with the schools, not only as a protective measure during school hours but also as an instructional means of developing an appropriate mode of behavior to maximize safety at all times.

The Director of Buildings and Grounds shall be responsible for coordinating all activities related to the school safety program. Personnel assigned responsibility for developing a safety program must be competent and act in a professional manner and shall be directly responsible to the District Administrator for the program. Such personnel shall be responsible for the promotion and development, when requested, of an aggressive accident prevention and safety education program for professional and support staff and those things that affect student and public safety. The general areas of responsibility include, but are not limited to, inservice training, accident record keeping, buildings and grounds inspections, vehicle safety programs, fire prevention, school site selection, emergency procedures, traffic safety problems related to employees, students and the community and drills for fires and tornadoes.

A school safety plan shall be developed and in effect in each school in the district. Each school safety plan shall be developed consistent with district policies and legal requirements. School safety plans shall be reviewed every three years and revised as necessary and appropriate. District employees shall be informed of their responsibilities regarding the implementation of school safety plans.

In providing for safe facilities, the Board shall comply with all safety regulations, state codes and orders and all applicable local safety and health codes and regulations.
